

Frequently Asked Questions

Is College Parke right for my student?

Absolutely! It's a great deal! It's new, it's near campus, you have a private room and bath, it's gated, there's campus shuttle service, and it's a fantastic financial deal. Starting from \$550 plus utilities per month. Talk about affordable! So, instead of shelling out \$800 or more for your housing expenses, live on a college student's budget at College Parke. We invite you to compare! You'll love where you live...and you'll still have money for food.

Who can live at College Parke?

College Parke is designed for young adults and students attending Anderson University, Tri-County Technical College, AnMed Radiology Program, and other local universities.

If one roommate leaves, will my student be affected?

College Parke offers an individual lease for each resident, so the decision of one roommate won't affect the leases of the others in the town home.

How can I be sure my student is safe, living off campus?

College Parke is a private, gated town home community that values safety above all else. Residents are required to use a code to gain entry.

What rules does College Parke have for its residents? College Parke's rules of residency are inspired by, and based on, the code of conduct outlined in the Anderson University Student Handbook. Our community standards are designed to mirror those of the college.

How will my student get to class from an off-campus town home? College Parke tenants may call the Trojan Transit shuttle to take them to and from campus classes each day. Of course, students are welcome to walk, bike or drive to campus, if they choose.
